“*David was a special cousin to me, we were not just 1st cousins but double 1st cousins and we seemed more like brothers. I loved David very much and he really loved to talk. When I see his picture he reminds me so much of his daddy, Uncle Parker. I will miss David so much, just like I miss his brother Thomas and his sister Betty. I think of David and his two boys and I love them all and I pray they are at peace because I know that David is. Prayers for all his family.*
