“ I had the pleasure of teaching Tristan science for two years. He was a wonderful and respectful student. He always found a way to make me smile. He was loyal to his friends and always tried to work hard. This year he told me that he wanted to "do better" whether it was just in my class or in general, I feel like he did that. Macedonia will not be the same this year, my classroom will not be the same this year. I will miss his stories and his goofiness. My thoughts and prayers go out to Tristan's family. Tristan will be greatly missed.
